Cane-line®

LIFE MADE COMFORTABLE

▲ STICKS DINING

A natural feeling

for all your spaces

Welcome to the Cane-line main catalogue. A catalogue presenting our outdoor and indoor worlds together. We believe in a true Cane-line universe presenting both our collections.

The theme for the 2024 news is "*A natural feeling*" as you will explore design news defined by organic shapes and a new colour scheme with nuances of elegant sand, natural taupe and warm earthy colours. Colours which perfectly complement our selection of natural materials, including teak, rattan, stone as well as fabrics with a refined texture.

Together, they all infuse the collection with cosiness and a welcoming warmth.

Our Cane-line DNA "*life made comfortable*" is reflected and integrated into every design. Designs made with the greatest care for our environment and the well-being of people. We believe that good design is responsible design with longevity.

We hope you will enjoy the collection 2024.

Brian Djernes | CEO, Cane-line A/S

RESPON-SIBILITY

Because we care

Cane-line believes that responsibility goes beyond the design and production of furniture. We are committed to a healthy environmental policy and an ongoing focus on minimizing our societal and environmental impact.

Responsibility and environmental awareness are a natural part of Cane-line's values, and therefore implemented as a natural part of our company for many years. As we acquire more knowledge and awareness on our environmental footprint, we continue to work and improve all aspects of our production in a more responsible direction.

Each product in our assortment is produced with care and respect. Responsibility is embedded in every stage of our company, from design process, choice of material, production process to the end stage after many years of use. We believe that great design is responsible design.
The ISO14001 certification, SMETA audition, our engagement in UN Global Compact and the Sustainable Development Goals express our dedication towards this cause.

Scan QR or read more about our principles on our website cane-line.com

Cane-line is certified by the international certification DNV-GL (Det Norske Veritas): ISO14001:2015.

Cane-line is audited by DNV-GL (Det Norske Veritas): SMETA (Sedex Members Ethical Trade Audit). SMETA is the world's most commonly used ethical audit format.

The UN Global Compact is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with ten universally accepted principles.

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indoneasia's timber legality assurance system) certification system.

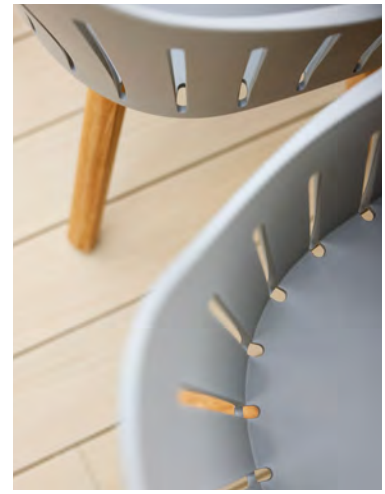

As a manufacturer of furniture, we believe our greatest impact comes from addressing UN Sustainable Development goals no. 8 and 12. To us, the SDGs make us even more motivated to work towards a more responsible business.

All products with the QuickDry & Airflow system symbol have cushions with QuickDryFoam.
Read more on page 381.

Choice - your responsible

CHOICE

The Choice chair is an example of great design which is responsible design.

Choice is a responsible alternative for the one, who has a desire to make more sustainable and responsible choices. The coloured shells in the chair is made with up to 98% recycled Polypropylene and all parts are replaceable and upgradeable.

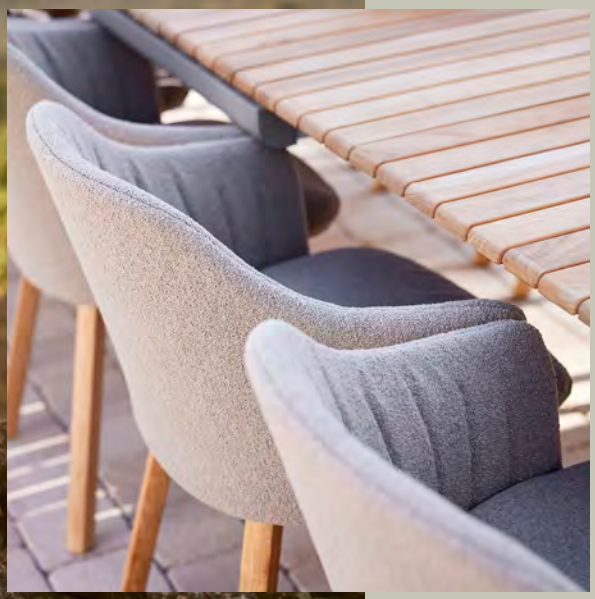

"*We need to be extra cautious and think carefully on how we use earth's resources, there needs to be a reason to bring new products to market. They need to have a purpose beyond being beautiful to look at,*" the designers Gudmundur Ludvik and Hee Welling explain.

A focus point has been to ensure that Choice has a long lifespan, because the most responsible and best thing for the environment is to take care of things instead of purchasing new ones.

No glue

The cushions of Choice are designed to attach the upholstery without the use of glue. This gives the possibility to easily remove the upholstery, clean it or change it.

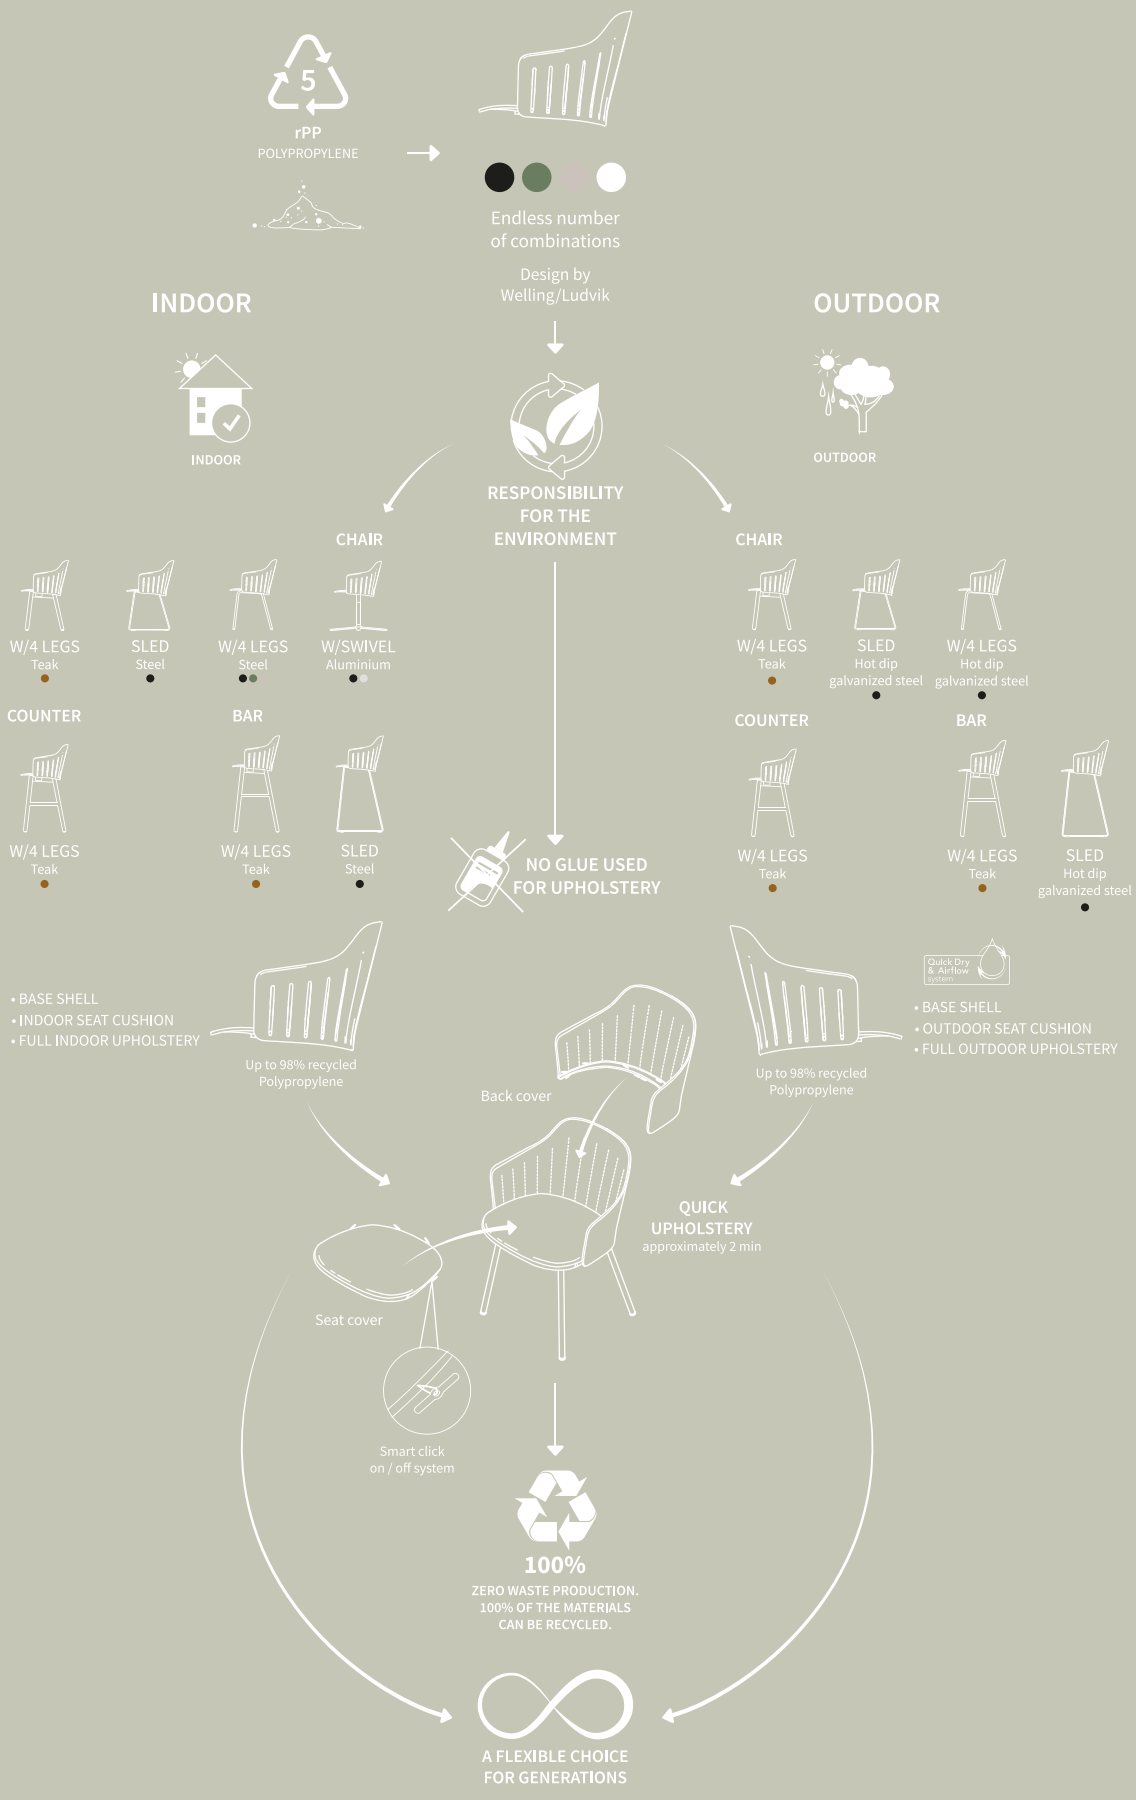

“The production, longevity and second life are part of the design” - CEO and owner, Brian Djernes.

The Life Cycle of Choice

Meet our

DESIGNERS

Foersom & Hiort-Lorenzen MDD

Johannes Foersom and Peter Hiort-Lorenzen MDD are two of Scandinavia's most renowned and successful furniture designers. Their goal is to create long-lasting value, and to stimulate a healthy development for people and their surroundings. They strive towards the highest quality in co-operation, process and product, and believe that knowledge and innovation are fundamental. The impressive use of exibility makes the furniture appear as small architectonic wonders.

Welling/Ludvik

The design duo Welling/Ludvik, Hee Welling and Gudmundur Ludvik, are contributing to the renewal of environmentally-friendly design centered around personal experience. They are defined by a pure aesthetic, stripping away excess and letting each detail serve a functional purpose. They aim to achieve the best possible solution as seen from a number of perspectives. Comfort, materials, construction, pricing and environment are all defining factors in their approach to design.

Strand+Hvass

Christina Strand (MDD) and Niels Hvass (MAA) believe that design itself is a strategy that can improve the conditions of human life, the environment and personal experiences. Additionally, they believe that design can be used as a tool to develop the competitive power and economic growth of society. Their design is user-centered and deeply rooted in the Scandinavian culture. Simplicity and well-balanced lines are the cornerstones of their work.

Søren Rose Studio

Søren Rose Studio is well-known for his minimalistic, Scandinavian style with strings into a modern and cosmopolitan expression.
The location of the design studio in New York is a source of inspiration to a raw design style that goes aesthetically well in line with the Scandinavian design tradition. The combination has been refined by the design studio through its many years of existence on the international design scene.

byKATO

ByKATO, Karl Rüdiger Rossell and Tonny Glismand, are dedicated to creating contemporary, highly usable products for everyday living.
They aim to bridge the gap between commercial, industrial design and high-quality craftsmanship by using honest and justifiable materials and paying careful attention to even the smallest detail. Their mantra is to design products, which they would like to have themselves so they always take starting point in their own needs. In this way it all comes from the heart and the required enthusiasm is always present.

Cane-line Design

At Cane-line the core value for good design is comfort and we believe in the optimal mix between comfort, aesthetics and functionality.
Our internal design team is working with this in top of mind to create an optimal collection with unique products adding value to life and making life more comfortable. Cane-line design team is also working closely with our external designers.

Cane-line news

Find inspiration for your living areas in our Cane-line 2024 collection. The collection embraces life made comfortable.
Our new designs offer a lot of possibilities for personal expression with focus on design, comfort and low maintenance.

'24 NEWS

LOUNGE

Relax, unwind & let go

Your outdoor lounge is your comfortable sanctuary under the open sky. Enjoy the relaxing space alone or together with your loved ones.

▲ STICKS LOUNGE CHAIR

STICKS

BY CANE-LINE DESIGN

Inspired by a stick construction, the Sticks series from Cane-line showcases an elegant and unique look.

Sticks is an inclusive and versatile series, making it possible to make a complete look in your outdoor space. With a rustic natural or a more modern minimalistic look, Sticks inspires you to rethink your outdoor haven.

Cane-line Weave® is a fibre made from highly durable, solution-dyed polyethylene (PE), which is ideal for outdoor use, as it withstands moisture and large variations in temperature.

The durable material is UV-resistant and requires minimal maintenance. The material will retain its colour and shape for many years.

All products are hand-woven with the Cane-line Weave® fibre, which can vary slightly in colour, creating a nice contrast in the surface of the weave. This gives the furniture a unique, natural and exclusive look.

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu certification system. This is a guarantee that the teak production supports responsible forest management.

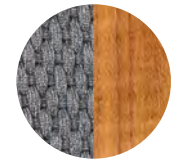

Cane-line Soft Rope is produced by woven polypropylene. The material has a soft surface that provides good support and excellent comfort. Cane-line Soft Rope is ideal for outdoor use and is UV-resistant.

COVERS

- Each cover comes in a handy storage bag

Cane-line outdoor furniture is weather resistant, but changing weather and falling leaves leave their marks. Using protective covers, save time on cleaning, keeping the furniture looking sharp and prolong their life span. MAKE SURE NOT TO COVER WET FURNITURE. DRY BEFORE COVERING.

Cane-line covers are made of a strong solution dyed polyester fabric, which protects the furniture during the winter. It is advisable to check covers after heavy falls of rain/snow and remove any water collected on top to ensure that the furniture remains properly covered. For further information please visit www.cane-line.com/collections/covers.

QUICKDRY
& AIRFLOW SYSTEM

Quick Dry
& Airflow
SYSTEM

Cane-line QuickDry & Airflow system offers cushions with our special QuickDryFoam®. The unique cushion composition with QuickDryFoam® ensures a quick drainage after heavy rain and an effective air circulation in humid weather conditions. The benefit is dry cushions approximately one hour after downpour and no risk of mould building inside the cushions due to the constant air circulation.

We recommend to store cushions indoors in a ventilated room or in one of our cushion boxes during winter season or when not in use for a longer period. For more information regarding maintenance and cleaning see cane-line.com.

All series with the QuickDry & Airflow system logo include QuickDryFoam®. All other cushions are delivered with our high quality Cane-line foam (cold foam).

CUSHION COMPOSITION

Outer cover/fabric
Inner cover/rain cover
Padding
QuickDryFoam®

90% of rainwater is repelled, whereas only 10% passes through the cushion

- Approximately one hour after rainshowers your cushions are dry, and you can sit comfortable in your furniture again.
- After a downpour, place the cushions in an upright position so the water can drain.

Teak is a tropical wood material with a beautiful golden brown colour. However, the colour will, gain a silver-grey patina over time if not treated.

If you wish to preserve the original honey golden brown colour, use Cane-line Teak Protector. A protector that preserves the nice and warm golden-brown colour.

TEAK CARE

Teak Cleaner

A Cleaner & Brightener in one.
To clean and restore discoloured and dark grey teak, this water-based formula is not only a high concentration cleaner, but also a brightener, which brings back the original colour of new teak.

Classified as non-hazardous.

COVERAGE:
m2: 10 - 12
Sq. ft.: 110 - 130
Chairs: 10 - 12
Tables (240 cm. / 80"): 2 or 3
Sofas / Benches (240 cm. / 80"): 3 or 4
Content: 1000 ml.

Teak Protector - Honey brown

Maintain the original honey brown colour for a longer time. Teak protector maintains the golden brown colour for a long time:

- Easy to apply
- Up to 4 times longer than teak-oil
- Up to twice as long as teak sealer.

This protector gives teak a nicer, more natural colour after application

COVERAGE:
m2: 8 - 10
Sq. ft.: 90 - 110
Chairs: 8 - 10
Tables (240 cm. / 80"): 2
Sofas / Benches (240 cm. / 80"): 3
Content: 1000 ml.

Green Scrubbing Pads & Padholder

For cleaning teakwood.

White Application Cloths

For applying protectors.

RATTAN

Blend chair is made of rattan which is the rascal of the jungle. Rattan belongs to the palm family. Rattan is a climbing plant, that grows over trees and other plants in the rainforest. There are about 600 species of rattan. Cane-line uses only the best and strongest for furniture production. Cane-line ensures sustainability in relation to the environment and human relationship in a society, which has its roots deeply embedded in rattan.

When comfort matters

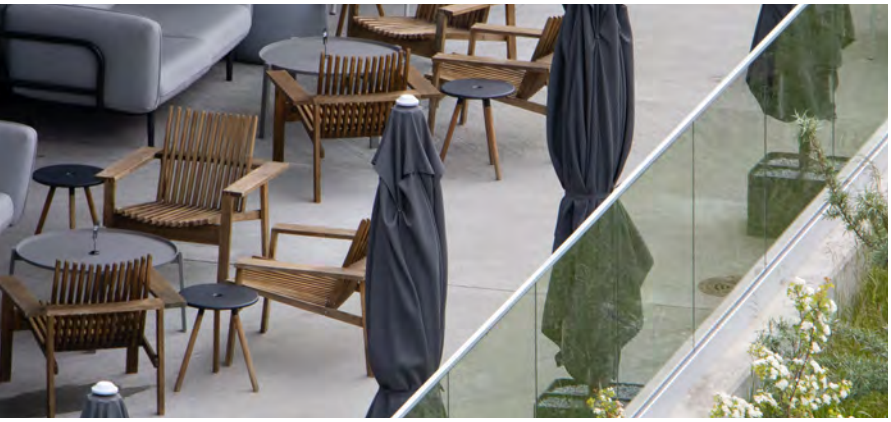

At Cane-line, we experience that accommodating and flexible furniture arrangements are a must for many of our international project partners. Our partners have high demands for quality, comfort and aesthetics. We match these needs by providing customised solutions for spaces.

Cane-line furniture is designed for heavy use over longer periods of time, yet still only require minimal of maintenance even in areas where large crowds come and go.

Our furniture is designed to suit needs, whether it is for formal meeting points, comfortable waiting spaces or relaxed lounge areas.

Our Danish design lives up to the brand identity of our project partners and our corporate conduct, and operations match international expectations about Corporate Social Responsibility (CSR). As a result, our customers include a wide variety of companies in the public and private sector, institutions, exclusive hotels, cruise lines and resorts.

Materials

Cane-line Natté

Cane-line Natté is a 100% solution dyed acrylic fabric. Cane-line Natté is a unique material produced by Sunbrella for Cane-line. Cane-line Natté combines the strength of normal all weather fabrics with the comfortable softness of the traditional Sunbrella fabrics, resulting in a soft yet durable fabric. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

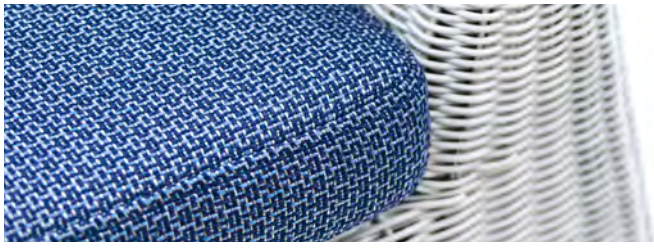

Cane-line Soft Rope

Cane-line Soft Rope is a weaved Selected PP fibre. The material has a soft surface that acts like a fabric. Avoid pulling/pushing the material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Cane-line Weave®

Cane-line Weave® is a fibre made from highly durable, solution dyed polyethylene (PE), which is ideal for outdoor use because it withstands moisture and large variations in temperature. Both the structure of the fibre and the weave ensure elasticity and optimal sitting comfort. The durable material is UV-resistant and requires minimal maintenance. Cane-line Weave® has been developed to withstand climate conditions all over the world and the material will retain its colour and shape for many years. It can vary slightly in colour, creating a nice contrast in the surface of the weave. This gives the furniture a unique, natural and exclusive look.

Selected PP

100% polypropylene (PP) and UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. For more thorough cleaning, all pillow covers can be removed and machine-washed at 30°C. Make sure the cover is completely dry before putting it back on the pillow.

Cane-line AirTouch

Cane-line AirTouch fabric combines the strength of Cane-line SoftTouch with the softness of Cane-line Natté produced by Sunbrella. It is a 100% solution-dyed acrylic fabric. Cushions made from Cane-line AirTouch are produced with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

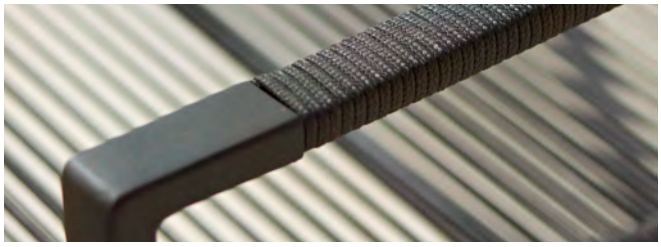

Cane-line Virtue

Cane-line Virtue is a 100% solution dyed acrylic fabric. Which is UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Glass

All glass tops are made of thoughened glass. The glass has been through a process, where it has been heated to approx. 650 degrees and then cooled. This curing of the glass makes it up to 5 times stronger than ordinary glass and less prone to cracking and breaking.

Cane-line Rope

Cane-line Rope is a combination of a woven Selected PP covering (a thermoplastic fibre) over a core of Cane-line Weave®. The material is elastic and has a soft surface that acts like a fabric. Avoid pulling/pushing the elastic material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

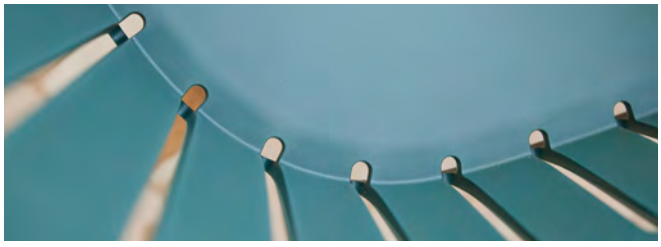

Cane-line Tex®

Cane-line Tex® is a coated polyester material that is ideal for outdoor use and requires minimal maintenance. Cushions made from Cane-line Tex® come with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

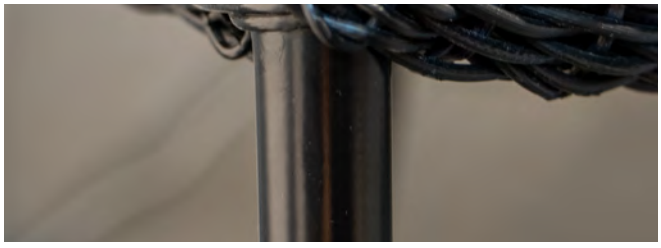

Cane-line Teak

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indoneasia's timber legality assurance system) certification system. Teak is a hardwood that is ideal for outdoor use due to its high oil content. Our teak material is grade A, meaning it is the best quality and characterised by the close grain and the warm honey golden-brown colour. The wood acquires a silver-grey patina over time. If you wish to retain the original golden-brown colour, we recommend treating teak furniture with a recommended teak protector. See Cane-line care products.

Polypropylene

Polypropylene (PP) is a lightweight, yet strong plastic. It is heat-resistant, ensuring durability for pieces exposed to sunlight or warmth. PP is resistant to many chemicals, making it ideal for home use where it may encounter cleaning products.
Its water-repellent nature also suits outdoor furniture. PP's ability to maintain its shape after bending means that chairs and tables remain stable over time. Furthermore, it's easily recyclable, making it an environmentally conscious choice for sustainable design.

Powder coated hot dip galvanized steel

All our steel furniture is hot-dip galvanized, which by far is the best corrosion protection of steel. Unlike only using paint which adheres to the surface of the steel, the galvanizing creates a hard-wearing and resistant surface with extraordinarily long life and requires only a minimum of maintenance. All our galvanized steel is afterwards powder coated for additional protection and aesthetic purposes.

Stainless Steel

Stainless steel is extremely weatherproof. However, tarnishing can occur in the form of flash rust. This can be removed by using a stainless steel cleaner. Regular cleaning with soapy water helps to protect the surface of the stainless steel and thus minimise the effects of chlorine, etc. It is also advisable to wipe the frame with acid-free oil at least twice yearly to minimise tarnishing.

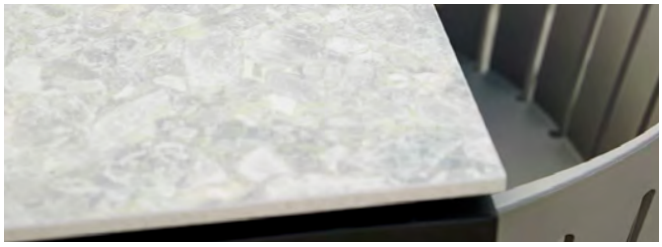

Powder coated aluminium

All our aluminium furniture is powder coated. Powder coating serves as a protective layer that is tinted in a variety of colours. Aluminium furniture is ideal for outdoor as well as indoor use.

Lava stone

Artistic Italian lava stones for table tops. Handmade with double glazing. Each tile and table top is unique and no two look alike. The lava stone is a natural material and small imperfections, such as colour and spots are to be expected.

Ceramic

The ceramic tops are made of porcelain, which is an extremely strong material that can be left outdoors all year round. They are made using natural materials, so there may be small variations in colours between the tops.

Cast Iron

Cast iron from Cane-line is composed of alloy of iron, carbon and silicon, which together provide a material particularly suitable for products that require great strength and heat resistance. Continuous maintenance is important, as otherwise over time, you will see rust formation on the surface in the places where the paint has been scratched and worn. Make sure to regularly remove ash from the fire pit, wash it off in clean water and dry it thoroughly when the items are cold. The product gets hot during use, so do not touch the product without gloves that can withstand the heat, and be aware of local legislation regarding the use of fire pits. Use of the fire pit is at your own risk (both to yourself and others).

HPL / high pressure laminate

Compact laminate is a very suitable material for outdoor use. The material is resin-impregnated paper, compressed under very high pressure creating a strong top with a scratch-resistant surface. These table tops require basically no maintenance and can remain outdoors all year round. Compact laminate will naturally fade slightly at the edges over time. In order to maintain the deep black colour, the edges can be re-freshed up by rubbing a little linseed oil on them. It is recommended that you cover the table with a furniture cover in the autumn and winter period.

Cane-line HI-Core

Cane-line "Hi-Core" Stone is an innovative and durable Hi-tech composite core material developed specially for all weather outdoor use. The components are mainly acrylic, which gives high durability and abrasion resistance.
Cane-line HI-Core has an elegant smooth and soft surface that rejects moisture, dirt and bacteria. We recommend that you cover the table with a furniture cover during the autumn and winter period.

Indoor materials

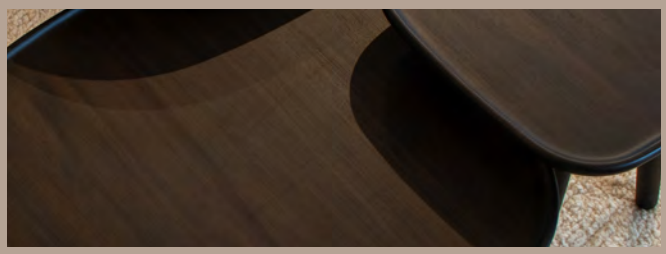

Rattan

Rattan is the rascal of the jungle. Rattan belongs to the palm family. Rattan is a climbing plant, that grows over trees and other plants in the rainforest. There are about 600 species of rattan. Cane-line uses only the best and strongest for furniture production. Cane-line ensures sustainability in relation to the environment and human relationship in a society, which has its roots deeply embedded in rattan. Rattan is only for indoor use. For cleaning and daily maintenance, use a wrung cloth. Once to twice yearly clean with white soap flakes and lukewarm water wiping off extra fluid with a dry cloth.

Oak

Oak is a strong and durable type of wood, perfect for everyday indoor furniture. It boasts a beautiful, natural color palette ranging from light golden to deep brown, and the surface can be treated to customize its appearance. With its unique and varying patterns, oak gives each piece of furniture a personal touch. Furniture made of oak is robust and can last for many years.

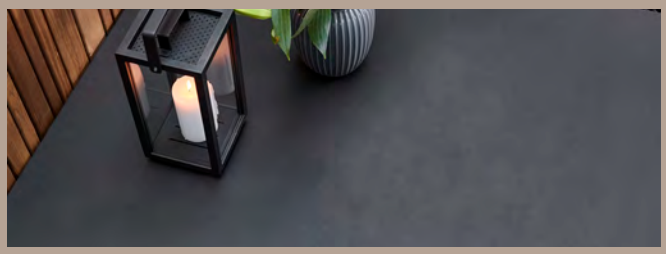

Mahogany

Mahogany is a luxurious and sought-after wood type due to its deep color and fine, smooth finish. This hardwood is known for its durability and ability to withstand wear. Mahogany's grain pattern is typically straight and uniform, providing an elegant and sophisticated look. It is also relatively free of knots, contributing to a clean and polished aesthetic.

Leather

Cane-line leather is a slightly corrected semi-aniline leather with a soft grip, as well as a beautiful natural scar that gives character. The leather is chrome tanned and made without the use of PCP and CFC. All Cane-line leather is stained and for indoor use only. The colours and scarves shown on the leather are for guidance only. There may be colour or scarring differences from the displayed image to the actual skin from which the cushions are made. It is important to care for and clean leather cushions regularly, so that the leather can remain soft and maintain a comfortable sitting comfort. This also prevents the leather from fading or drying. We recommend using a leather care product.

Linoleum

Linoleum is a natural material and consists of linseed oil, cold pressed, to which dyes and various types of fillings are added. It can be resin, lime and cork, stone or wood floor. The material is not scratchproof and only for indoor use. Linoleum is a soft material that is easy to clean with a twisted cloth, and immediately wipe again with a dry cloth. Do not use dishwashing detergent, brown soap, or other ammonia-containing products. In case of stubborn stains, we recommend washing with water and soap chips, which will also leave the table with a surface that is more difficult to absorb abrasion. We recommend using coasters when applying hot pots and bowls on the material.

Rattan Peel

Peeled bark from rattan. Sustainable material, dyed using a special technique to emphasize its natural look. Very lightweight and durable. For cleaning and daily maintenance use a wrung cloth. A solution of white soap flakes and lukewarm water should be applied once to twice yearly to maintain the natural flexibility.

Collection

Cane-line is a Danish design company with more than 30 years of experience in designing and manufacturing functional and comfortable furniture.

Life made comfortable is the very essence of Cane-line. All over the world our mission is the same – to make life comfortable and add value to life and the places where you unwind and relax. We are constantly focusing on quality, innovative technologies and comfort in both products and life to ensure that our furniture is made with the greatest care for the environment and the well-being of people.

Cane-line furniture and accessories are designed and manufactured with the purpose to have a comfortable living lifestyle. The furniture offers maximum comfort and minimal maintenance.
